

UNITED

The World's Leading Airline

On Oct. 1, 2010, United and Continental closed their previously announced all-stock “merger of equals” transaction to create the world’s leading airline. The new United will offer customers an enhanced travel experience, combining the best products and services each carrier has to offer. The airline will be focused on being the airline customers want to fly, the airline employees want to work for and the airline shareholders want to invest in. Highlights of the new United include:

- World’s most comprehensive global route network, including world-class international gateways to Asia, Europe, Latin America, Africa and the Middle East with non-stop or one-stop service from virtually anywhere in the United States
- Most modern and fuel-efficient fleet (when adjusted for cabin size), and the best new aircraft order book, among U.S. network carriers
- Industry-leading frequent flyer program that will provide more opportunities to earn and redeem miles worldwide
- Optimal hub locations in 10 cities, including hubs in the four largest cities in the United States

United Continental Holdings, Inc., is the holding company for United Airlines and Continental Airlines. Travelers will begin experiencing a more unified product in the spring of 2011, as the carriers begin to align key customer services, marketing activities and airport processes. United and Continental will continue to operate separately until the company receives a single operating certificate from the Federal Aviation Administration that will allow it to operate under a common set of manuals and procedures, which is expected to take at least a year.

This fact sheet provides an overview of the holding company, United Continental Holdings, Inc. For more specific questions and answers, visit UnitedContinentalHoldings.com.

Hub Cities

Domestic

148	International destinations (airports served)
59	Countries Served
5,811	Daily Departures
144	Million passengers per year are served by Continental and United combined

World-Class Global Network

Comprehensive Domestic Network

Member Lounges

Continental's Presidents Club and United's Red Carpet Club members already have access to both lounges as part of Star Alliance. This benefit remains unchanged following the closing of the legal merger. In addition, guests of both clubs will now enjoy the convenience of free WiFi and access to complimentary snacks, alcoholic and non-alcoholic beverages.

Frequent Flyer Programs

For the near future, Continental's OnePass and United's Mileage Plus will remain separate frequent flyer programs. The airlines are in the process of aligning the programs to create the world's leading loyalty program, and program developments will be announced periodically throughout 2011 as we aim to fully combine our loyalty programs by 2012.

Miles accrued in frequent flyer accounts and frequent flyer program status are safe, and customers will continue to earn and redeem miles normally. Elite customers will have reciprocal seating and upgrade benefits in October 2010.
